Gartner lists Opmantek in 2016 Market Guide for Network Automation

GOLD COAST, Wednesday 27th January 2016 – Opmantek (ASSOB:OMK) a multi award winning provider of IT infrastructure management and Audit solutions, today announced that it has been identified as a representative vendor in the Gartner "Market Guide for Network Automation" report.

Network Automation tools have been steadily growing in popularity as network architecture continues to grow and become more complex. According to Gartner "Increased agility in the network domain is a top priority for I&O Organizations and network teams".

The report focuses on two of Opmantek's commercial software modules, Open-Audit Enterprise and opConfig, which enable businesses to lower costs and reduce human error by increasing process and configuration agility, while ensuring compliance to relevant policies and regulations set by the business. The report found that "There continues to be a significant mandate from the business for networks to adhere to corporate and government compliance, auditing standards and regulations".

Opmantek CEO, Danny Maher said "Opmantek has been gaining traction in our focus areas of network and operational automation and event management. We believe being named by Gartner as a representative vendor reflects our continued global growth and momentum in this space"

Gartner, Market Guide for Network Automation, Vivek Bhalla, Sanjit Ganguli, 14 January 2016
