### **Guarda Group signs up major clients**

On behalf of Guarda Group Holdings, I am delighted to announce that our Perth based wall chasing business has picked up 3 major clients in the last month which will effectively more than double 2018 volumes and revenues compared with 2017.

This new business is a result of the ability of Enviro Chasing Services, a subsidiary of Guarda Group, to offer safer wall chasing services via our purpose-designed saws and other equipment. Builders and electrical contractors are recognising the risks associated with conventional wall chasing and acting accordingly.

#### About Guarda Group

Guarda Group Holdings is the holding company of several subsidiary companies that develop, manufacture and sell concrete cutting saws and related equipment. The Company also offers safer wall chasing services to domestic builders via the Enviro Chasing brand. Guarda products mitigate deadly Carbon Monoxide (CO) and Crystalline Silica Dust that saw operators are exposed to. Guarda products and services are covered by extensive patents and are highly sought after in both domestic and international markets.
