

OPMANTEK

OPMANTEK AND BLUEMOUNT CAPITAL RECEIVE IAWARD

Opmantek (ASSOB:OMK) and Bluemount Capital have been recognised and awarded with an iAward for innovation and business success.

The iAwards are an internationally associated awards program focused on recognizing the achievements of innovators. CEO Danny Maher says that he is “very proud to receive the award and the recognition for Opmantek’s continued success”.

Opmantek’s energetic development cycle has provided customers with tools that are able to meet their business needs in real time, within practicality and budget constraints. Since commercializing NMIS under a year ago Opmantek’s product releases have continued to successfully fulfill customer functionality requests. “With new modules planned to expand capability this year it’s great to already be recognized as a leading innovator in Australia” says Mr Maher.

Opmantek shares can be purchased on ASSOB’s secondary board.
