

OPMANTEK

OPMANTEK NAMED QUEENSLAND'S TOP ICT EXPORTER FOR THE 3RD CONSECUTIVE YEAR

Monday, 31st October 2016

After a year of outstanding international growth, Opmantek were thrilled to be recognized for the 3rd consecutive year as Queensland's top ICT exporter in the Premier of Queensland's Export awards this month, taking out the Digital Technologies award against strong local competition.

The Premier of Queensland's Export Awards acknowledge the important contribution that Queensland exporting businesses make to the state's economy through job creation and increased prosperity in the community - receiving an Export Award is considered to be the highest recognition of exporting achievement and to attain multiple back to back wins in a category is a remarkable accomplishment.

Opmantek General Manager, Sharon Hunneybell said that the Opmantek team were delighted that their global success was celebrated again this year "It's been a big year for Opmantek, we've seen significant commercial traction in a number of new international territories and our product development team have made some big advancements in technology. We love the opportunity to share our global achievements with other Australian businesses through the Export Awards and to be named top exporter of digital technology in Queensland for the 3rd consecutive year is a reflection not only of how hard we have worked this year but also how much we have grown as a company year on year."

Opmantek will now progress to the Australian Export Awards, to be held at the end of November, where they will compete for national recognition as the top exporter of Digital Technologies.
