OCULAR ROBOTICS LIMITED (ASSOB: OCR)

- **Ocular Robotics CEO, Mark Bishop Wins 2014 NSW Business Leader Award**

It is my great pleasure to announce that following on from our wins at the 2013 NSW Business Awards in the Excellence in Innovation category and as 2013 NSW Business of the Year, that at the 2014 NSW Business Awards held on 28th November I was awarded the NSW Business Leader Award. While this award is personal in nature it would not have been possible first and foremost without the great team at Ocular Robotics and also our shareholders, customers, suppliers and all our contacts and supporters.

At the awards evening attended by over 1000 people, the NSW Business Leader category saw fourteen high calibre finalists from a wide cross section of businesses in the running for the award so it is a great honour to have won the award from among this field.

Once again winning this award is great recognition of the work the team at Ocular has put in, and the confidence that our business peers have in the potential of the company.

Further information can be found in the following [media release](#) from NSW Business announcing the NSW Business Leader Award.

Mark Bishop - Director, CEO
