

## OCULAR ROBOTICS LIMITED (ASSOB: OCR)

- **Ocular Robotics Appoints Turkish Distribution Partner LEO Engineering**

**Leo** mühendislik  
engineering

Ocular Robotics is pleased to announce the appointment of Turkish automation technology reseller and full service solution engineering house, LEO Engineering in a new distribution partnership.

Ocular Robotics' unique and innovative products will extend LEO Engineering's existing market leading product line up, with sales capability supported by the company's integration, installation, training and technical support services.

Further LEO Engineering's solution engineering delivers to their customers a full range of capabilities through to complete integrated solutions across a range of industries and environments.

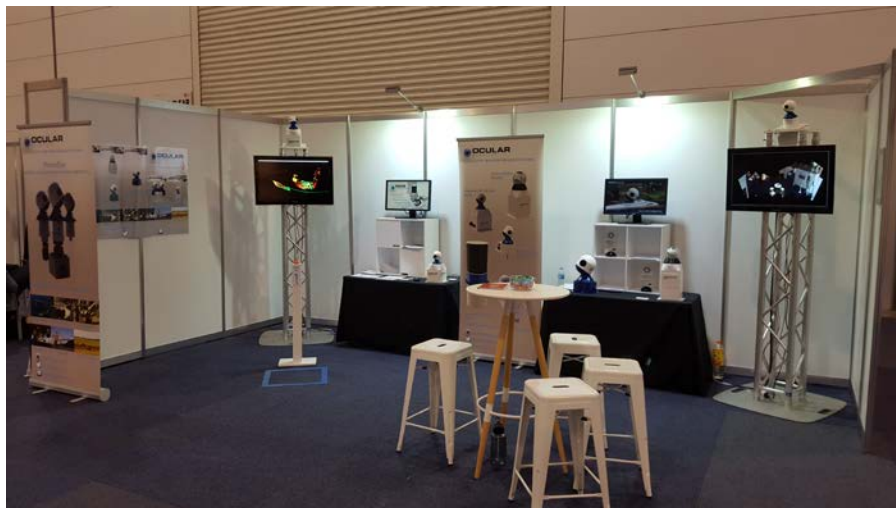

This partnership provides access for the company's products in highly relevant sectors in a key regional market furthering Ocular Robotics' development of a geographically and sector targeted network of distributors to meet the needs of the diverse range of applications where its products offer unique and ground breaking capabilities.

- **Impressive Display of Ocular Robotics' Products at Connect Expo 2016**

Ocular Robotics showed off an impressive array of products at this years' Connect Expo held in Melbourne on 19-20 April. The B2B and B2G focussed exhibition presented OCR's capabilities to a wide range of potential customers and in

addition to the familiar areas of automation, robotics and security, opportunities in sports broadcasting, GIS and health care where the company's products can provide unique solutions made for a very interesting show.
