

OCULAR ROBOTICS LIMITED (ASSOB: OCR)

- **Ocular Robotics CEO Invited to Speak on Entrepreneurship at Prestigious International Robotics Conference**

Ocular Robotics CEO, Mark Bishop has been invited to speak on entrepreneurship at the prestigious IROS robotics and automation conference in Chicago from September 14-18, 2014. The [IROS 2014 Industry Forum](#) runs over the Tuesday of the conference and brings together leading and early stage robotics companies, VC's, government and academia to present on 'Perspectives on Entrepreneurship in Robotics and Automation'.

Mark will be in the US for a week and apart from spending two days attending the conference he will meet with senior executives at the following companies;

- **Rapiscan Systems**, the world's leading security screening provider is headquartered in Torrance, California and has additional offices and manufacturing in Finland, India, Malaysia, Singapore, Mexico, United Kingdom and the United States.
- **SRI International**, SRI bridges the critical gap between research universities or national laboratories and industry by moving R&D from the laboratory to the marketplace to create high value and real innovation.
- **Bosch**, the Bosch engineering and electronics group has operations in more than 60 countries around the world, and bases its Automation Technologies & Robotics division in the San Francisco bay area.
- **E & M**, One of California's largest automation technology distributors and automation solutions providers to manufacturing and industry.

Mark Bishop - Director, CEO
