

OCULAR ROBOTICS LIMITED (ASSOB: OCR)

- **Ocular Robotics Appoints US Based Leading Global Supplier of Autonomy Components as Distribution Partner**

[AutonomouStuff](#) the leading supplier of components to the rapidly growing autonomy sector has been appointed as an Ocular Robotics distributor partner. AutonomouStuff's strong track record of sales into a sector highly relevant to Ocular Robotics products and their internal integration and solutions capability combine to ensure they will play a key role in bringing Ocular Robotics' unique and innovative products to this sector.

In a press release on Tuesday, February 16th 2016 the companies said;

[AutonomouStuff teams up with Ocular Robotics to provide Ultra-High Performance Sensing](#)

Morton, III. - AutonomouStuff — known for providing the world's best autonomy enabling technologies and unrivaled customer service — has entered into a working partnership with Ocular Robotics, Ltd. Ocular Robotics provides its patented **RobotEye** technology and expertise in high performance optical sensor pointing.

"I'm really excited about the opportunities Ocular's exclusive RobotEye family of products provide," said AutonomouStuff CEO Bobby Hambrick. **"This one of a kind sensor platform gives our customers the ability to take full advantage of speed and precision in land-, air- and sea-based applications."**

RobotEye is currently used in various applications including autonomous navigation and robotics, 3D mapping, mine automation, emergency response vehicles and port automation. Products AutonomouStuff is proud to offer include [RE05](#) and [RE08](#) LIDAR Scanners, [REV25](#) Camera Pointing Vision, [REV25-ST](#) Stabilized Vision Package, [REHS25](#) Hyperspectral Imaging and the naked [REN25](#) RobotEye Unit.

"The team at Ocular Robotics is excited to begin this partnership with AutonomouStuff, the leading component supplier to the autonomy market," said Ocular Robotics' CEO Mark Bishop. **"We have great confidence that as a key distribution partner AutonomouStuff will play a vital role in bringing Ocular Robotics' unique and innovative sensing products to this rapidly growing market."**

About Ocular Robotics

Australian-based Ocular Robotics designs, manufactures and markets the world's most dynamic sensor platform. It is the only platform that brings together unmatched speed and precision in one solution. RobotEye delivers the agility and precision required to drastically increase operational performance and efficiency for systems that rely on sensors in markets as diverse as robotics and automation, security and surveillance, aerospace and defense, mining and resources, and precision agriculture. About AutonomouStuff

Headquartered in the heart of Illinois, AutonomouStuff reaches the world as the leading single-source supplier of autonomous components and services. The company was founded with the goal of **bringing together the world's best technologies** to enable autonomy and increase safety.

A main focus at AutonomouStuff is customer success. Customers value the convenience of finding perception, computing, GPS and interface components in one location. For more information, visit www.AutonomouStuff.com.

This non-exclusive global partnership provides access to a key sector while enabling Ocular Robotics to continue to develop a geographically and sector targeted network of distributors to meet the needs of the diverse range of applications where its products offer unique and ground breaking capabilities.
