

OCULAR ROBOTICS LIMITED (ASSOB: OCR)

Astech GmbH to provide Ocular Robotics' Technology Based Solutions to German Industry

Ocular Robotics Limited (ASSOB:OCR) is very pleased to announce that it has appointed Astech GmbH as preferred solutions provider and non-exclusive distributor for the German market.

Angewandte Sensortechnik

Astech has a long history of providing robust and highly reliable industrial measurement solutions to industry. Ocular Robotics' RE05 3D Laser Scanning System provides Astech with a robust 3D scanning capability for harsh industrial environments that is unique in both its scanning capabilities and ability to withstand the harsh environments common to many industrial applications.

Using the RE05 3D Scanner Astech will provide 3D turnkey solutions to its many industrial clients across a broad range of industries. The experience and reputation of Astech's technical staff in providing industrial measurement solutions are a good fit for Ocular's RE05 product and we look forward to seeing it put to many interesting uses in solutions which Astech supplies to its customers.

In addition to supplying industrial measurement solutions to its customers Astech will represent Ocular's RE05 3D laser scanner as a non-exclusive distributor in the German market.
