

Company Announcement Friday 10 March 2017

Queensland Business Development Fund – Co-Investor Application

Tailored Superannuation Solutions Ltd (“TSS” or the “Company”) is pleased to confirm, following a board meeting on 8 March 2017 that it will be making an application to the [Queensland Business Development Fund](#) (QBDF) at the start of April 2017.

If the application for matching investment from the Fund is successful, co-investors may be provided with **an option** to buy out, at a very favourable rate, the Fund’s equivalent shares in the business at a future date. QBDF eligibility criteria for co-investors include that they have committed to providing an investment, have experience, strong reputation and the ability to manage reporting. TSS will arrange and provide full assistance to co-investors throughout this process.

The QBDF application is separate and in addition to the Federal Governments [Tax Incentives for Early Stage Investors](#) which, subject to conditions, provides a 20% tax offset and no capital gains tax for 10 years. TSS will be providing relevant details to the ATO by the end of July 2017.

Under these combined arrangements a \$100,000 investment may not only be capital gains tax free but also provide the investor with \$20,000 tax benefit in August 2017, plus the ability, if desired, to purchase the QBDF shares at a circa \$110,000 once Trustee Tailored Super has been adopted by the first superannuation fund and TSS share value has multiplied.
