SprintSuite Update:

The directors are pleased to share some updates about our Company, SprintSuite, as we continue to make significant strides in growing our value proposition and industry impact.

We're thrilled to announce the introduction of some exciting new enhancements to our platform which we launched last week.

We want to say thank you to those clients who have already been testing these features and providing us with valuable feedback.

We're excited to bring these enhancements to all our users and hope they bring significant value to your business. Stay tuned for more exciting updates in the pipeline. Here's a summary of the new features:

- ***Seamless Integration with XERO Payroll*** including sending timesheets from our system to XERO Payroll with a single button click.
- ***Simplified Workshop Time Sheeting & Job allocation*** – improved functionality for managing workshops jobs and streamlining employee time tracking.
- ***Create Leave Requests for Staff*** – enter leave requests on behalf of your staff to enable easier management of upcoming leave requests and plan our mobilisations.
- ***New Job Statuses*** – Introducing two new job statuses, dispatch and qualification, to provide better visibility and control over job progress and qualification.
- ***Non-producing Approvers Permission Update*** – Access to approve Non-Producing Timesheets is now managed exclusively withing Roles and Permissions.

- **Reconciliation Permission Update** – introducing enhanced control over the Reconciliation Permission, now solely managed within the Roles and Permissions settings.
- **Permission Update on Client Contact Tab within Clients** – now managed solely through Roles and Permissions under “Client Permissions”.
- **And Bug Fixes!**

Additionally, in the month of June, the Team signed up 8 new companies representing an additional 244 new users, with an additional further 200 users projected to onboard in July.

We’re also excited to advise that our Workshop Time Sheeting Kiosks are now live in 4 our clients workshops. See the photo below.
